## BSP sees inflation rising

By LAMARCA DELA CRUZ

After seeing its lowest level in 24 months, the Bangko Sentral ng Pilipinas (BSP) sees inflation rising due to rising oil prices, higher food prices, and the continued weakening of the peso against the US dollar. BSP Governor Benjamin Diokno is said to be a bit leniently optimistic that prices for which food commodities (2 percent) and (2 percent) compared to a month ago (1 percent) in February. Inflation could be higher than 3 percent (3 percent) of 2 percent. In the short run, inflation will remain low, but the long-term inflation rate will be higher than 3 percent, Diokno stressed.

Despite the positive outlook on inflation, the BSP chief is still cautious that prices would not follow the low-to-medium target set by the BSP for this year (2-3 percent).

However, he pointed out that the peso's decline caused inflation to rise, which is not a good sign for the BSP's target.

Inflation is a good sign for the BSP, but it is not a good sign for the economy. Inflation is a good sign for the BSP, but it is not a good sign for the economy.

As the author points out, there is a need to encourage individuals to become more involved in their communities. I think I can speak to this from my own experience. I have been involved in many community organizations, including the American Red Cross, the American Heart Association, and the American Cancer Society. I have also been involved in many local organizations, including the local chapter of the American Red Cross, the local chapter of the American Heart Association, and the local chapter of the American Cancer Society. I have found that being involved in these organizations has helped me to meet new people, to learn new things, and to make a difference in my community. I encourage everyone to get involved in their communities and to make a difference in the world.

# Free orientation on Waldorf education today

The Manila Waldorf School (MWS) invites the public to a free public orientation on the topic of Waldorf Education. The orientation is titled "Waldorf Education: A Journey Through Time" and will be held on March 26, 2012, from 9:00 AM to 1:00 PM at the MWS building.

Waldorf education is a holistic approach to education that emphasizes the development of the whole child. It is a holistic approach that emphasizes the development of the whole child, including the body, mind, and spirit.

For those who are interested in Waldorf education, the orientation is a great opportunity to learn more about this approach. It will be held on March 26, 2012, from 9:00 AM to 1:00 PM at the MWS building. The orientation is free and open to all.

To prove my point, let's suppose that the cost of a stockout is 1 unit in the physical quantity, through the rule in a non-quantitative regression, I predict that, if the cost of a stockout is 1 unit, the optimal inventory is 1 unit. This is the optimal inventory.
